## *Good and Plenty*

No. T47-45      \$25.00 NET

Good and Plenty are two Iris from one seed — a white bud sport and its identical blue sister, which are being introduced as one plant. They are not only a botanical curiosity, but are two very nice Iris; flaring and ruffled; of medium size.

As a seedling which bloomed the first year from a single rhizome the plant was divided through the center, half white and half blue. The branches on one side of the stem produced white flowers. The other side bore blue flowers. The terminal bud produced a flower which was half white and half blue, divided down the mid-rib of each standard and each fall.

The increase on one side of the rhizome gave plants which produce all snow white flowers; the other side gave plants which create blue flowers. These flowers do not produce pollen, but set seed freely. The white is a recessive white and should be very valuable to breeders. We will sell the two plants as one for \$25.00 net.

## *Butterfly Blue*

\$20.00 NET

No. 49-24 — 47-34 X Cahokia

A clear light blue self with a pale lemon beard and a frosted finish. There are no haft markings. Flowers are semi-flaring and nicely ruffled. The 36-inch stem is strong and well branched. Late bloomer; winter hardy; good increaser.

---

TERMS ARE CASH WITH THE ORDER — PLANTS WILL BE SHIPPED BY PARCEL POST DURING JULY AND AUGUST

# *Truly Yours*      \$20.00

No. 46-35 — 44-43 X Zantha  
(1949)

A truly new flower and combination of color in the Iris world. Truly yours produces the largest flowers I have ever grown, but in spite of their great size there is no sign of coarseness. The buds are bright yellow because the under side of the open fall is yellow and the top side is faced with white. The heart of the flower is bright yellow, which shades off to almost white at the bottom of the falls and the top of the standards. Both standards and falls are ruffled. The haft is very wide with gold threads radiating from the yellow beard. Falls are almost horizontal, and standards do not open. It blooms very late in the season; is winter hardy; 38 inches tall. Has fertile pollen, and sets seeds freely. H. C. 1949; A. M. 1951.

# *Black Hills*      \$20.00 NET

No. 49-21 — 47-21 X Black Forest

I have grown blue-black Iris seedlings for more than ten years, but none have completely satisfied me until Black Hills bloomed three years ago. This full-petaled, nicely-proportioned, flaring and stylish blue-black flower with a beard to match and no haft markings, is borne on a four-way branched bloom stem three feet and more in height. A very fast increaser and vigorous grower. Mid-season. H. C. 1950.

# *Pale Dawn*      \$2.50

No. 44-4 — 41-35 X Matterhorn  
(1947)

A pale blue Iris which does not fade. The large full-petaled, tailored flowers are borne on a strong, perfectly branched 40-inch stalk. The haft is wide and clean. The falls are flaring, and the standards are domed. The plant is very large and vigorous; early and winter hardy.

SOLD  
OUT

No. T48-3

## New Horizon X F2 Pink Seedling

This deep rose pink self, with a bright tangerine red beard, is a new color in Iris—"Bengal Rose" in the R. H. S. Color Charts.

The flowers are large and have a thickness of petal seen in few Iris. The haft is very wide; free from markings. Falls are round and flaring with a rippled edge. Standards are well formed and hold together firmly. The form of this flower is near perfection. Flowers are well spaced on a strong nicely-branched 36-inch stalk. Plants are large and vigorous, with good foliage. The pollen is fertile, and seeds are produced in abundance. Mid-season. H.C. 1950. H.M. 1951.

# *Desert Song* \$3.00

No. 44-47 — Snow Flurry X Golden Eagle  
(1946)

The large, flaring and ruffled flowers are of nice proportions and bloom over a very long season. The flower is a cream self. The haft is clean and the beard is yellow. 40 inches tall. H. M. 1946; A. M. 1949.

# *Gulf Stream* \$2.00

No. 43-4 — Dymia X Narain  
(1946)

Midnight blue absolute self with no haft markings; even the beard is the same shade of blue. Vigorous grower and thoroughly hardy; 37 inches tall. Mid-season. H. C. 1945; H. M. 1946.

# *Katherine Fay* \$1.00

No. 41-31 — Gloriole X 39-3

Large, pure white; with broad, well-formed flowers and wavy petals. Withstands wind and hot weather. Completely winter hardy. H. M. 1945; A. M. 1947.

## *Lake Breeze* \$1.00

No. 41-21 — Gloriole X Ballet Girl  
(1945)

Cool wisteria blue with just a suspicion of pink shining through the blue. Lake Breeze is heavily ruffled, the falls flaring and wide with no haft markings; 37 inches tall. Mid-season. H. M. 1945.

## *New Horizon* \$3.00

No. 44-36  
(Morocco Rose X Hall 40-24) X Overture  
(1946)

Peach pink self with a tangerine beard and pink buds. The flowers are above average in size and are carried on a strong well-branched stalk; 40 inches tall. H. C. 1945; H. M. 1947.

## *New Snow* \$3.00

No. 44-24 — Snow Flurry X Fay 41-11  
(1946)

A white Iris which is neither a warm nor a cold white but is as white as new snow. The beard is full and bright yellow, adding a great deal of life. This is the only color in the flower, as there are no haft markings. A sturdy and well-branched stalk 40 inches tall holds the large, ruffled and flaring flowers well aloft. Mid-season; hardy, and a fast increaser. H. C. 1945; H. M. 1946; A. M. 1948.

## *Twilight Sky* \$5.00

No. 47-6 — Pink Cameo X Flora Dora  
(1948)

A pink of exceptional form and substance with pink buds, red beard. Standards are domed; falls flare at just the right angle. The flower is medium in size, tailored; the haft is clean. The widely spaced flowers are carried on a strong, graceful 35-inch stem. Plant is hardy, vigorous, and a very fast increaser. H. M. 1950.

## *Pink Cameo* \$2.50

No. 44-1—42-02 X Overture

A clear, light pink flower with a tangerine beard and very pink buds. The standards are closely held and the falls are flaring. The 36-inch stem is strong; well branched. An early bloomer and a fast increaser. H. M. 1946; A. M. 1948.

## *Tranquility* \$15.00

No. 46-36—Snow Flurry X Katherine Fay  
(1950)

This very large milk-white flower is carried on a perfectly branched strong stem 38 inches tall. The haft is wide and clean and the beard is white. The flower is round and full petaled, with nicely flaring falls and domed standards. Very large strong plants with blue green leaves. Completely winter hardy at Chicago. Mid-season. H. M. 1950.

## *Fire Dance* \$5.00

No. 41-12  
(1947)

A very red plicata whose glowing depth of color commands the attention of all visitors. The flower is round and full with flaring falls; buff edged in red. The standards are heavily marked all over wine red. H. M. 1947.

## *Zantha* \$4.00

No. 44-12—Gold Medal X 41-22  
(1947)

A very large deep yellow self, clear and clean, with a deep yellow beard and no haft markings. Flowers are nicely formed, tailored and flaring. The 37-inch stem is strong and well branched. Winter hardy at Chicago. H. C. 1946; H. M. 1947. Winner of the President's Cup, 1947.

# HEMEROCALLIS

I have been breeding Hemerocallis quite extensively for ten years and have at last decided to name one. In Hems I like bright, clear, clean colors — as we now have in modern Iris. The flowers should not burn or wilt during hottest days. They should retain their freshness and sparkle until sundown.

*Lark Song* **\$10.00**  
NET

*Vespers X Joanna Hutchins*

From two very good parents comes Lark Song. Wide petaled, medium large, bright canary yellow self, carried on strong straight scapes 38 inches tall. A day bloomer which stays in bloom until dark. Deciduous and completely winter hardy.

*Joanna Hutchins* **\$2.50**

**Dr. E. J. Krause**

I have grown this flower since it was a numbered seedling, and to me it is probably the most satisfactory Hem I have grown. The beautifully formed, clear, clean orange flowers have a substance and finish which carry them unfading through the hottest day — remaining fresh until ten o'clock at night. Evergreen plant. Winter hardy at Chicago, having withstood 24 degrees below zero without loss.

*Evelyn Claar* **\$8.00**

**Dr. E. J. Krause**

One of the best of the new pink Hems. The plant is rather small, so it does not take up too much room in a small garden. The foliage is blue green. The plant is deciduous and a good increaser; vigorous and winter hardy. The broad-petaled flowers are carried on 37-inch scapes which produce up to 40 buds per scape. A good parent both ways, as I have bloomed hundreds of its pink seedlings.
